

Installing SAP PCL Barcode Fonts on the WorkCentre 78xx Family.

PCL Fonts Package;

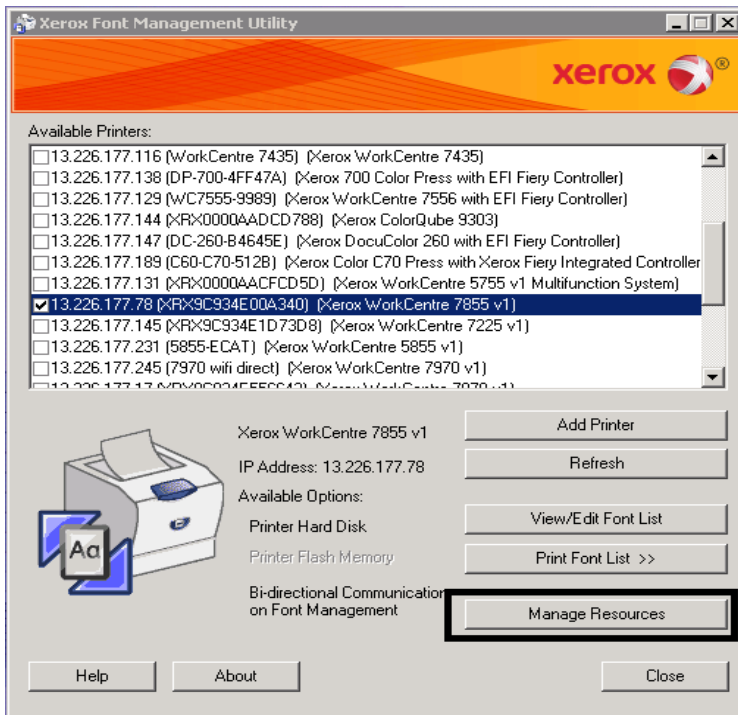

- Go to http://www.office.xerox.com/perl-bin/formeng.pl?form=sap_bar_code_index and request the PCL barcode solution.
- Extract the contents of XRX_BC_PCL.zip to a client workstation on the same network as the printer you wish to install the fonts.
- Go to <http://www.support.xerox.com/support/workcentre-7800-series/file-download/enus.html?operatingSystem=win7&fileLanguage=en&&associatedProduct=WorkCentre-78xx-built-in%20controller&contentId=133526&from=downloads&viewArchived=false> and download the Xerox font management utility.
- Run the WinFMU_2.3.3.47_english.msi file to install the font management utility.
- Once installed, open the Xerox font management utility.
- Click add printer.

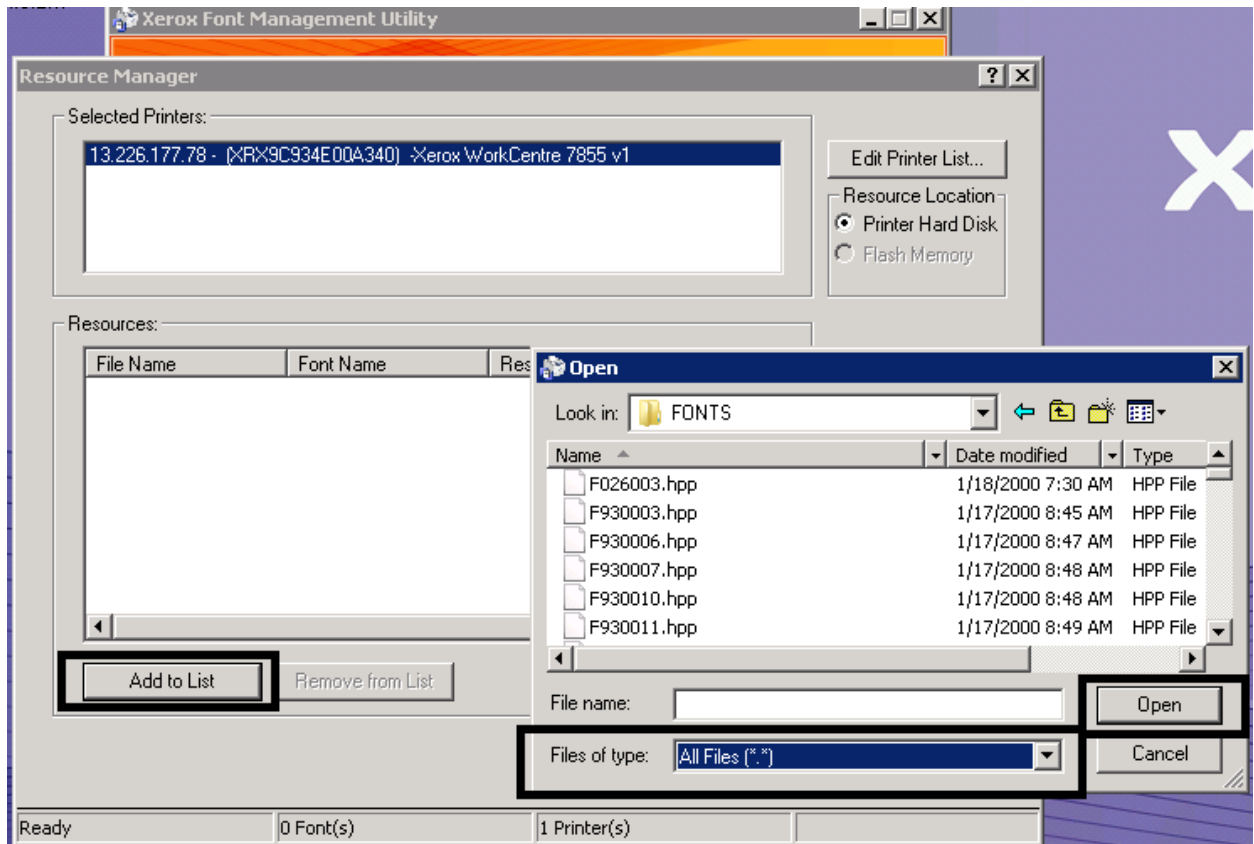

- Type the ip address of your printer and click add printer.

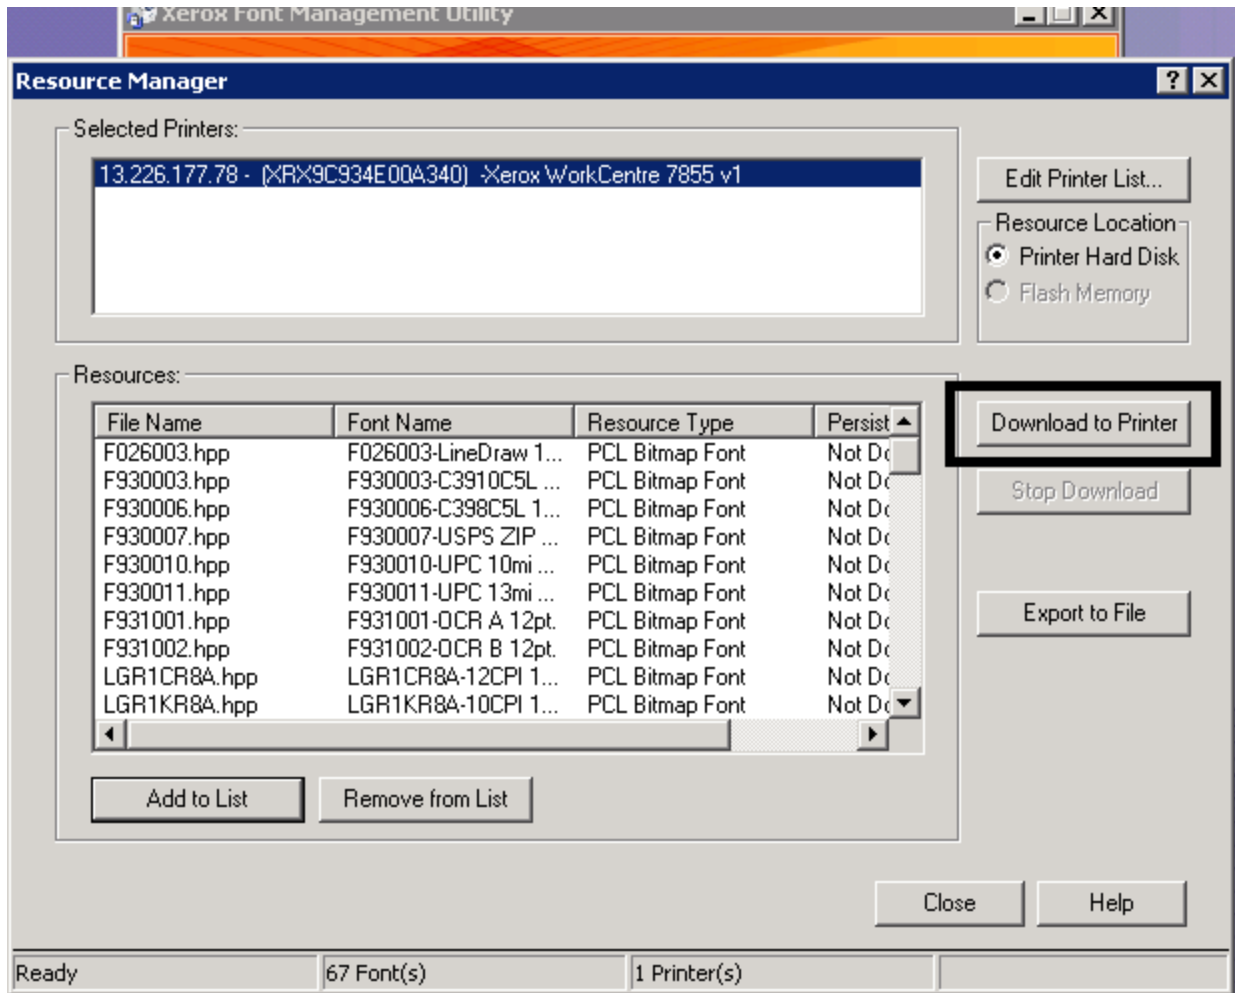

- Click manage resources.

- Click add to list and navigate to XRX_BC_PCL/Fonts.
- Select "all files" for files of type.
- Select all the fonts and click open.

- Click download to printer.

- Select apply to all and click ok on the next pop-up.
